DEAD END - Biography - SHORT

At the end of the 80's DEAD END was born with members Micha, Eef, Jeroen van Riet and drummer Gunther Weerepas.

The first demo in '91 called Tales from the Real Life..

After that, Micha wanted to focus on the vocals and in Alwin Roes they found a new bandmember on the bass guitar.

The second demo was called "Purity " and was released in '92.

The band had some great gigs with bands like Pestilence, Gorefest and Pentacle.

The band started receiving record deals from labels like Century Media and Nuclear blast, but could not commit due to school obligations. DEAD END decided to stop there and then.

Dead End died at the end of 1992 after releasing an EP called "Wartime in Eden "and releasing one song exclusively on D.S.F.A. compilation cd.

In the early 2014's Vic Records released a cd with all the old remastered songs. This triggered the rebirth of DEAD END.

Micha, Eef, Jeroen van Riet and drummer Gunther Weerepas declined for a full restart, so in Jeroen Gijsbers, Bryan Boorsma, Arjan Jansen en Harald Bouten new members were found.

The new DEAD END is born and with the recordings now done for their brand new album "REBORN FROM THE ANCIENT GRAVE" due to appear in the summer of 2016, released by VIC records and DOC holliday MP they are convinced Dead End will regain their spot in the dutch death metal top!
